Flagged

Great for fine debris and use on smooth surfaces

Unflagged

Great for larger debris and rough surfaces: Bristles prevent ends from matting making this style perfect for back-of-house and outdoor applications

Duo-Sweep® Straight

- Two handle holes; upright hole for general purpose sweeping or angle hole for reaching into corners, along walls, or into hard to reach areas
- Flagged blue synthetic bristle for fine debris
- Stiff black synthetic bristles can be easily cleaned to extend broom life
- Guaranteed to outlast up to four corn brooms

FLOOR SWEEPS

Only Carlisle offers a broad range of high quality professional floor sweeps that are durable and versatile. **Our manufacturing and industry expertise provides advantageous features you can't find elsewhere.**

41881 with 40225 Handle

41880 with 40225 Handle

Omni Sweep®

- Unique patented design combines the features of fine, medium, and heavy floor sweeps in a convenient all-in-one design
- Effective on all types of floor surfaces
- Short, heavy bristles in front easily sweep up heavy debris
- Long, fine/medium bristles in back sweep fine dust and particles

Angled Pitch

Fast, effective sweeping

Sweep Complete™

- Versatile and durable floor sweep with built-in squeegee
- Comes with 60", 3-piece aluminum handle with brace
- Two handle holes extend the life of the sweep

Fine

- Recommended use: Fine powder and dust removal on polished wood, marble, terrazzo, or ceramic tile floors
- Heavy-duty plastic block resists splitting and cracking and is unaffected by moisture
- Soft, flagged bristles

36204824

Medium

- Recommended use: For general sweeping of smooth concrete, unpolished wood, vinyl and tile floors
- Heavy-duty plastic blocks resist splitting and cracking and are unaffected by moisture
- Horsehair-Polypropylene is a perfect blend of soft bristles for fine dust and stiff bristles for heavier debris
- Use black natural tampico bristles for heavy dirt
- Black polypropylene bristles resist oil and water while maintaining shape

FLOOR SWEEPS

Heavy

- Recommended Use: Outdoors on rough surfaces such as sidewalks and parking lots
- For wet or dry sweeping
- Polypropylene (PPY) bristles are stiff and long lasting under harsh conditions. PPY bristles resist oil and water making them ideal for back-of-house cleaning
- Palmyra bristles are medium stiff and long lasting under harsh conditions
- Plastic blocks are extremely durable and resist water, cracking, splitting and chipping
- Wood blocks are made with natural lacquered hardwood

DUSTPANS & SWEEPERS

Lobby Pan & Broom Combos

- Lobby pans and brooms with sectional handles to give you over 50% reduction in carton size; lower cube saves warehouse space and shipping costs
- The lobby pans pivot and lock into place during use and release for easy carrying or emptying
- Handles feature a pivoting hanging hole at top for storage

361415 Combo includes the following:

– Serrated edge allows you to comb the broom's bristles and drop debris into the pan

– Handy clip to attach broom for convenient storage

– 30" two-piece handle made from vinyl coated steel

361416 Combo includes the following:

– Adjustable position head for more functional use in corners and under counters or tables

– 3 piece, 30" handle

– Handy clip to attach broom for convenient storage

– Shelf-friendly packaging

DUSTPANS & SWEEPERS

Dust & Lobby Pans

- Dust Pans are available in metal or plastic as well as in a “flip-up” lobby style or hand held
- Dust pan (361437) features a 90° threaded handle hole to convert it to an economy lobby dustpan
- 361420 features a 2 piece handle which reduces the carton size saving warehouse space and shipping costs
- 361420 has plastic edged teeth on the bail which allows you to comb through broom bristles to remove debris

361437

36236

361410

361420

Floor Sweepers

- Brushless mechanical sweeper has non-marking rubber blades that grab fine particles and heavy debris from various types of floor surfaces
- Large capacity dust bins thoroughly clean blades as they rotate; won't re-deposit dirt like ordinary sweepers
- Easy one touch doors for emptying debris
- Shelf-friendly packaging

FLOOR SQUEEGEES

Straight Rubber Squeegee with Metal Frame

- Durable construction
- Non-marking single red gum rubber blade with medium flexibility
- Heavy duty steel frame with red powder coating

40076

VersaClean™ Brush & Squeegee

- It's a broom, scrub brush and squeegee all in one! Can be used on wet or dry surfaces
- Unique non-marking synthetic rubber bristles can build electrostatic charge to pick up hair or other light debris from soft or hard floor surfaces
- Durable bristles are excellent for scrubbing
- Dishwasher safe making it one of the most hygienic broom and brush options on the market
- Resists most chemicals and withstands temperatures up to 212°F

36596

36592

Squeegee cleans up wet surfaces quickly

Picks up light debris from carpet, rugs, or bare floors

Use as an agitator for stubborn spots on tile or concrete

Built-in one-piece squeegee works on rough concrete surface

HANDLES

STEEL

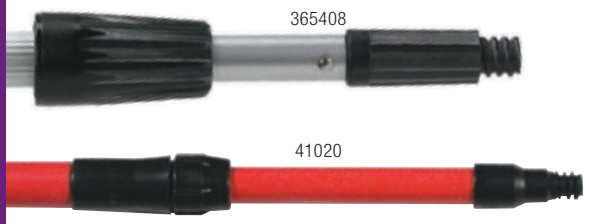
Steel Handles

- Heavy-duty stainless steel handles are highly chemical resistant
- For use with caustic chemicals or in a sanitary food processing environment
- Highly durable alternative to fiberglass

METAL

Coated Metal Handles

- Lightweight and economical
- Plastic hanging cap



TELESCOPIC

Telescopic Handles

- Adjusts quickly to desired length
- Standard threaded end
- Ideal for window brushes and squeegees

3-Piece Aluminum Handle

- Utilizes metal y-connectors to secure sections
- Compact size saves on shipping costs
- Shelf-ready packaging

HANDLE ACCESSORIES

Roll 'N Grip™ Broom & Brush Holder System

- Adjustable rack holds a variety of different handle diameters
- Comes with a convenient hook for tools and brushes (additional hooks and grippers are available by special order)
- Rack anchor holes are 16" on center (mounting screws included)

Roll 'N Grip Plus

- Constructed of light-weight, durable ABS and rubber
- Fold-up hanging hooks for smaller items
- For use in temperatures from -4°F to 176°F
- Grips accommodate items from 5/8" - 1-1/4" in diameter and 0.4 - 8.25 lbs
- Hanging hooks can hold up to 1.5 lbs each

Color-Coded Brush Rack

- Heavy-guage aluminum
- Extra deep (2-1/4") frame extends out from wall to allow brushes to hang with bristles facing the wall
- Holds up to 10 hanging tools
- Mounting holes are 16" on center (mounting screws included)
- Available in 5 colors to support HACCP compliance

WET MOPPING GUIDE

Use the guide below to help choose the right products for your floor care needs.

General Mopping

Choose mops with high absorbency, release and durability. If laundering facilities are available, it is beneficial to take advantage of launderable mops to save money. For performance and durability choose a synthetic blend or rayon mop with looped end and woven tailbands.

Finish Mopping

For finish mopping applications look for a rayon or synthetic mop. These mops offer high absorbency and release. To make sure you are achieving maximum floor coverage with minimal streaking choose a tailband and looped end yarn.

Yarn

- It is important to choose the right mop in order to get maximum efficiency
- Some yarns naturally perform specific cleaning tasks better than others

Yarn Ply

- Yarn ply is the number of strands twisted together to make a single yarn strand
- Although more plies give added strength, it does not always mean higher quality yarn
- More strands can add durability, but they decrease absorbency
- It is better & more cost effective to choose a higher quality yarn than a high ply, low quality yarn

Twist

- The “twist” of a yarn is a result of how tightly the fiber strands are wound together
- A tightly twisted yarn might have more strength & last longer, but it can have less absorbency
- The best choice is determined by the type & quality of the yarn, as well as the mop’s construction
- Mops with looped-end construction allow the yarn to have a loose twist without the fraying

	Advantages	Disadvantages	Use
Cotton	Good absorption & retention with limited shrinkage & a low initial cost.	Break-in period required. Slow drying yarn leads to mildew & deterioration. Lints.	Designed for general use. Scrubbing & cleaning up liquids.
Synthetic	Long stable fiber offers excellent tensile strength without linting.	Higher cost. Poor absorption.	Rough surfaces.
Cotton Synthetic Blend	Excellent choice for performance, price & durability. Synthetic fiber offers durability & color options.	Possible shrinkage.	Requested by professionals who require a better, longer lasting mop.
Rayon	Absorbs quickly with easy release. Dries fast & is mildew resistant. Cleaner yarn with less linting.	Shrinks when laundered and has less liquid retention.	Use for applying liquids such as disinfectant or floor finishes.

ENVIRONMENTALLY FRIENDLY

The majority of our mops are made with recycled material.

Band Styles

Wide Band

Vinyl coated mesh. 5" Width

Narrow Band

Textured polyester tape. 1.25" Width

Screw Top

Textured polyester tape with a metal screw on attachment. 1. 25" Width

Handle — Jaw Style

Handle — Quick Change/Release

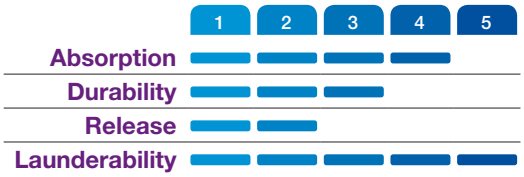
Handle — Screw In

Cut-End Or Looped-End

Cut-End
- Cut-end mops are the most popular
- Low purchase price compared to looped end
- Cannot be laundered
- Cover less area per pass when mopping

Looped-End
- Superior performance & lasts longer than cut-end mops
- Launderable
- Tailband style gives better mopping coverage
- Looped-ends prevent fraying & unraveling so you can achieve reduced labor costs & replace mops less often
- Although the initial investment is more than a cut-end style, the life expectancy makes looped-end mops a more economical choice

How We Rate Our Mops



Absorbency
The absorbency of a mop refers to the ability to pick up and retain liquid. Higher levels allow faster floor drying times, leading to greater productivity and safety. Rayon and cotton yarns have the highest absorbency.

Durability
Mop durability is a measure of how long it will last or perform before needing replacement. Synthetic and blended mops are the most durable.

Release/Retention
Release is the ability of a mop to disperse liquid onto the floor or during wringing. Higher levels allow faster and more complete wringing, as well as more efficient application of cleaning solutions on the floor.

Launderability
The launderability is based on the number of washing cycles it can withstand before the construction of the mop is degraded. Synthetic and blended fiver mops have the highest levels of launderability.

Sizes Are Indicated By Tailband Color

Small

Medium

Large

X-Large

Brick Packs
Mops that are available in brick packs reduce cube up to 62%
(Item #'s ending with a "B" are sold in brick packs)

LOOPED END MOPS

Synthetic/Cotton Blend Looped-End

- Maximum Durability
- 50-75 uses per mop
- S, M, and L are available in brick packs

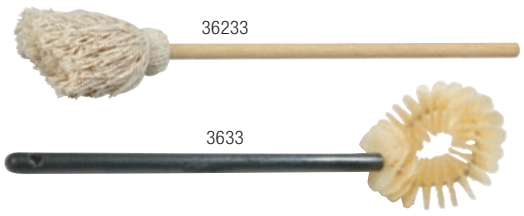
Boot 'N Shoe Brush

- Helps eliminate dirt, and other contaminants from being tracked into food prep and serving areas
- Chromed steel tube frame can be bolted to floor for security; brushes flip up to expose a steel scraper
- Non-absorbent plastic block construction with long lasting blue polypropylene bristles

Bowl Brushes

- Bowl brushes are available in a variety of styles and bristle materials
- 40140 has 180° bristle head to prevent splash-back
- 36232 and 36233 have all-natural cotton yarn securely attached to smooth wood handle



Ergonomic Force Cup

- Ergonomic design maximizes applied force while maintaining ease and longevity of use
- Over-molded rubber handle for easy grip
- 21" plastic handle is non-absorbent and more sanitary than wood handles
